PROPOSED UI FOR ESCROW PROJECT

PROJECT: ESCROW — Full UI Breakdown

GENERAL RULES:

- Colors: White #FFFFFF, Green #0FA86A, Red #FF3B30 for dispute, Black #000
- Font: Default Material (no custom)
- Bottom Nav always: Home | Deals | Chat | Profile
- Every money must show as LOCKED with padlock icon

A. ENTRY SCREENS (For All Users — Registered or Not)

1. Splash + BUY/SELL Choice Screen
   - Big text: "What do you want to do today?"
   - 2 Cards: BUY (I want to buy safely) + SELL (I want to sell safely)
   - Even if user not registered, he can click and then app asks phone login.

2. Login: Phone number + OTP (No email), or Email + OTP

B. BUYER FLOW

3. Create Deal Screen (Buyer can create)
   - Product/Service Name: Dropdown with list + Button "Add New Product Name"
   - Seller Phone (optional if open advert)
   - Quantity selector (+ / -)

- Price input (Creator sets price)

- Delivery Timeline: [24hrs, 48hrs, 3 days, 7 days]

- Terms & Conditions box + Free Instructions box (multiline)

- Upload Proofs: Photos/Videos/Receipts (multiple)

- System auto-calculates: "Buyer Fee: ₦500 | Seller Fee: ₦500" — show total

- Button: CREATE & SHARE LINK

4. Buyer Open Advert Screen (Wanted)

- Same as above but Toggle: "Let any seller see this advert"

- Sellers will see list of buyer requests and click "I have it — Indicate Interest"[Phone][Generator][Wigs][Laptop][etc]

C. SELLER FLOW

5. Seller Create Advert/Deal Screen

- Product Name, Quantity Available, Price per unit, Delivery Timeline, Terms, Instructions, Upload Proof

- Button: CREATE ADVERT LINK

- After create: Shareable Link Screen with WhatsApp, Copy Link buttons

- Logic: Once buyer approves, link becomes LOCKED (show "Quantity: 0 / Sold Out" or "In Progress — Link Disabled"). If quantity >1, link stays active for next buyers.

6. Seller Storefront (Trust Screen) — Very Important

- Header: Tunde Gadgets

- Stats Row: 248 Deals | 90% Positive (green) | 10% Negative (red)

- Badges: Verified ✓ | Top Seller | Fast Shipper

- Tabs: Products (his active adverts) | Reviews (comments + rating stars) | Completed Deals

7. Seller Rating Screen: After each deal, 5-star + comment + tag: Positive / Negative — stored for storefront.

D. TRANSACTION SCREENS (Core Money Flow)

8. Deal Details / Escrow Status Screen

- Timeline progress bar (4 steps):

  Step1: Buyer Paid — HELD 🔒 + Proof uploaded

  Step2: Seller Sent Waybill — Button: I HAVE SENT WAYBILL + Upload Waybill Receipt

  Step3: In Transit — Countdown timer (delivery timeline)

  Step4: Delivered

- Amount Card: ₦50,000 LOCKED (Seller can see but greyed Withdraw button or none since fund can goto seller automatically when buyer clicks I RECEIVED AND RELEASE funds button)

- Buttons based on user:

  Buyer sees: I HAVE PAID (auto-detect payment if Paystack), I HAVE RECEIVED PRODUCT

  Seller sees: I HAVE SENT WAYBILL

- Auto-release logic text: "If buyer doesn't raise dispute in 2hrs after delivery, money auto goes to seller"

9. Refund Rules UI (Must show before payment)

- Small info icon: "If refund due to Buyer negligence (not available to receive): Charge ₦X. If due to Seller negligence: Full refund to buyer, seller pays logistics To & Fro."

E. CHAT & DISPUTE

10. In-App Chat (Cannot Delete)

- Top: Deal info + Call Seller/Buyer button

- Middle: Chat bubbles + Upload proof button (photo/video)

- Bottom Fixed Bar: Dispute Button | I didn't get item | Fake item | Not what I ordered

- When dispute clicked: Upload Evidence screen + Vote for Admin to Intervene

F. NOTIFICATIONS & DEALS LIST

11. Push Notification Screen: List of updates "Tunde has sent waybill", "Money released", etc.

12. Deals List / Marketplace Screen

- Search + Filter by Category (Phone, Wigs etc)

- Cards: Product Name, Price, Seller name, Rating, Quantity left

- Toggle: Buyer Requests / Seller Adverts

G. ADMIN DASHBOARD (Web Control Panel — Not in App)

13. Admin Login (Web)

- Dashboard Cards: Total Held Balance, Pending, Disputed, Completed Today

- Tabs:

a) Live Transactions: Live, Pending, Locked, Released, Disputed, Completed — with filters

b) User Management: Verify / Ban / Freeze user + View device ID to flag double account, VPN

c) Dispute Center: See chat history (decrypt), Evidence photos, Decide winner button (Refund Buyer / Pay Seller / Split)

d) Commission Settings: Set % per category, flat fee

e) Escrow Wallet: Total money held from bank partner (Paystack/Wema)

f) Withdrawal Approvals: Approve seller withdrawals

g) Broadcast: Compose push/email to all users

h) Referral System: Set invite reward, see codes, earnings

SECURITY UI NOTES FOR DEV:

- Chat: End-to-end encryption (show padlock in chat)

- Flag UI: Admin sees red flag if same device has 2 accounts, or VPN, or high-risk deal >₦1m
